## CAREER OBJECTIVE

As a passionate software developer with a strong foundation in web development, data analytics, and machine learning, I aim to leverage my skills to build innovative solutions that solve real-world problems. I am excited about collaborating with talented teams to drive impactful projects in the tech industry.

## EDUCATION

|                                                                                                             |                                             |
|-------------------------------------------------------------------------------------------------------------|---------------------------------------------|
| <b>Presidency University</b><br><i>Bachelor of Technology in Computer Science Engineering - CGPA - 9.19</i> | <b>2021–2025</b><br><i>Bengaluru, India</i> |
| <b>Krishnamurthy JR college</b><br><i>Physics, Chemistry, Mathematics - Percentage - 95.8%</i>              | <b>2019–2021</b><br><i>Nellore, India</i>   |

## COURSEWORK

- Data Structures and Algorithms
- Machine Learning and Artificial Intelligence
- Database Management Systems
- Web Development (HTML, CSS, JavaScript)
- Cloud Computing and GCP
- Generative AI

## PROJECTS

|                                                                                                                                                                                                                         |             |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------|
| <b>Raspberry Pi-Based Sign Language Interpreter</b>   Python, OpenCV<br>• Developed a real-time sign language recognition model using a Raspberry Pi and OpenCV for gesture recognition to assist the hearing-impaired. | <b>2022</b> |
| <b>E-commerce Sales Analysis Dashboard</b>   Power BI, SQL<br>• Built an interactive sales dashboard using Power BI to analyze sales data and predict future trends across various regions.                             | <b>2023</b> |
| <b>AI-Based Smart Shopping Assistant</b>   Google Cloud, AI<br>• Developed a smart shopping assistant using AlloyDB and Vertex AI to provide personalized product recommendations.                                      | <b>2024</b> |

## TECHNICAL SKILLS

**Languages:** Python, Java, HTML, CSS, SQL, JavaScript  
**Frameworks/Tools:** React, Flask, Node.js, Bootstrap, PowerBI, Google Cloud Platform  
**Database Management:** MySQL, MongoDB, AlloyDB  
**Version Control:** Git, GitHub  
**Development Tools:** VS Code, Eclipse, Jupyter Notebook, PyCharm, Looker

## PERSONALITY SKILLS

- Problem-solving
- Teamwork and Collaboration
- Effective Communication
- Adaptability
- Creativity

## EXTRA-CURRICULAR ACTIVITIES

---

- Member, Halli Katte Guys: Speaker and contributor at HKG Trainings, assisting in organizing softskill workshops for student communities.
- Sports: Active member of the university basketball team.

## INTERESTS

---

- Artificial Intelligence   Machine Learning
- Data Science   Analytics
- Open Source Contributions
- Music and Video Games
